Examiner's Amendment and Reasons for Allowance

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Aaron Ettelman on 4/27/2004.

2. The application has been amended as follows:

In Claim 18, the symbol "-- % --" has been added after the figure "0.2" and before "to".

The title of the application has been written as "Method for preparing alcoxylated carboxylic acid esters" in the Bib sheet. This has been changed to the spell-corrected title which is "Method for preparing alkoxylated carboxylic acid esters."

3. The following is an examiner's statement of reasons for allowance:

- The rejection of claims 11, 14, and 16 has been withdrawn due to applicants' convincing argument.
- The close reference for the current invention is Quack et al (EP 335,295).

Quack et al teaches a preparation of alkylene glycol ethers by reacting carboxylic acid esters of formula $R-COOR'$ where R is 1 to 25 alkyl groups; R' is 1 to 10 alkyl groups, with

ethylene oxide at a temperature of from 100 to 200⁰ C. in the presence of hydroxide ,oxide, or alcoholate of an alkali metal or alkaline earth metal catalyst. The reaction is conducted at from 130 to 180⁰ C. in a molar ratio of ester and alkylene oxide in an amount of from 0.05 to 5 weight % of catalyst .

However, the instant invention differs from the reference in that the claimed weight ratio of the sodium to the potassium salt is from 20:1 to 1:20; the prior art has offered no teachings which would suggest the desirability or motivation of the addition of multiple different catalysts; the specific ratio of the mixtures of sodium and potassium compound is not disclosed. In addition, unless all limitations of the claims are met, there is no prior art rejection. See In re Zurko 59 USPQ 2d 1690 (Fed Cir. 1991) and In re Lee, 61 USPQ 1430 (Fed Cir. 1991).

Therefore, applicants' claimed subject matter would not have been obvious to the person with an ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to " Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.
